Short Description: Gold

Juxtaposed with their delicate forms, the raw, elemental finish of our Finch Statues provides the petite pair of birds an unexpected boldness. It's impossible not to admire their charming presence or gild ed display, perched lightly on contrasting blocks of the same gold leaf. Elongated white marble bases give the decorative pair a distinctly sculptural feel, like magical miniature monuments for your desk, side table, console, or bookshelf. Place together or create a symmetrical motif on either side of a long tabletop or mantel, or across two side tables flanking a sofa. Dimensions: W 4.5" x D 3" x H 9.5"
