

Moe 4-Drawer Dresser

Short Description: Ochre

SKU: TAR7047

$7,450.00

The Moe Dresser showcases a rare and intricate artistry, crafted from carefully selected Guanacaste trees where the trunk naturally splits into two branches. This specific cut yields a striking, mirrored grain with rich tonal contrasts—a feature that's as limited as it is distinctive, with only a few cuts possible from each log. Our ebanistas meticulously align these bookmatched surfaces to create a harmonious flow, allowing the wood's unique character to enrich each piece. The Moe Dresser is a prime example of backwards design, where the furniture's design is guided by the inherent qualities of the material rather than imposing a predetermined concept upon it. Moe stands as a testament to both the rarity of the material and the dedication to refined craftsmanship.Finish: Ochre Guanacaste Abstract MetalWood: Reclaimed GuanacasteDimensions: W 63" x D 20" x H 30"
