The Valentina Dining Table offers a striking juxtaposition between bold, modern forms and rich, textured materials. Each tabletop has a slightly curved shape, crafted by joining large sections of rustic walnut into a unique, puzzle-like pattern. Th e wood is burnt, sun-bleached, and wire-brushed to bring out its natural character. The curved legs are wrapped in our “Abstract Metal” finish, created by layering steel sheets, spraying them with water, and sun-drying them over several weeks to develop organic rust patterns. This thoughtful blend of sleek design and raw material brings a distinctive, expressive quality to every piece in the collection.Finish: Bog Walnut, Abstract MetalWood: WalnutDimensions: W 96" x D 47" x H 30"
