$495.00

The Anito vase takes it's inspiration from forms encountered in the natural world. Borrowing from coral reefs, to forests, to natural rock outcroppings, our artisans have created vases in white matte porcelain that celebrate the beauty and the asymmetry forms encountered in both land and sea. Stunning in their originality, these pieces serve either decorative objects, for example gracing center table or a dining table, or as vases holding floral arrangements.Dimensions: Dia 8.5" x H 14.5"
