Sophisticated warmth meets contemporary design in our Odeon Console Table. Its sleek profile has a modern, minimalist appeal, while elemental finishes and meticulous metalwork elevate the piece for high-end tastes. We can thank Villa & House's expert craftsmen for that. Their creative touch can be found in the treatment of the antique brass cladding, which covers the Odeon in a tactile pattern that feels organic while resembling naturally aging metal. Its interior plane presents the brass with a smooth finish. The Odeon features a fixed shelf, solidifying its geometric silhouette and serving as the perfect showcase for art pieces or stacks of books. It's a handsome accent in a foyer, sitting room, or study.Dimensions: W 48" x D 8" x H 30"
